Odyssey Bookshop

The Odyssey bookshop is an independent bookstore in South Hadley, Massachusetts, once a satellite library of S.G.L. records from 1960 to 1963. Romeo Grenier, the owner and operator of the bookshop and keeper of the S.G.L. records for Massachusetts families, passed away in 2016.

In late 1963 the library was moved to Maine where it has been for 59 years. Kathleen Hicks had been exposed to Romeo Grenier in 1987. It is believed that she may have been part of the group of people that closed out the last of the gathered reports of Stavrosian records and finally delivered to their new home in Maine. She would have been about 18 years old or so at that time. What we know is that she has never disclosed her part in the work done then.

Today she has become the Deputy Secretary of Defense. It is of no surprise to the Stavrosian community that she is in close collaboration with the intelligence network. They are putting together a Management Executive Council made up of intelligence groups, members from Defense, the Navy, and the new group called Airborne Identification. However, there will be a Stavrosian representation mixed into the group. Their presence will remain secret. Their only function is to protect the Stavrosian people.

Their mission will also include a degree of misinformation. No matter how you feel or see the big picture, the Stavrosian people still hold to the secret. They watch the security carefully.

Paul Munson of the S.G.L. has reviewed all the documentation moved from the Odyssey Bookshop to establish that no reports were left behind. We do not know for sure what, if any, agenda Hicks may have. We don't know if she even understood her complete involvement. It is, however, clear that she knows something at this time.

Paul has done a complete and thorough review as of December 30, 2021. Paul has stated that he has no way of knowing if any documentation had been retrieved by government agencies. Paul Munson did an audit of all the documentation he had access to and has a high confidence level that all or most of the reports made it to Maine.

The S.G.L. will continue to monitor the activities of this new group (AOIMSG) to observe and protect the Stavrosian people.

We know there are other alien life forms that have and are still visiting Earth. They too want to know they are safe. Stavrosians walk among man. There are the others who walk here too. Not all are nice guys. You see, the safety of Earth is our safety as well. We will stand by you of Earth, please stand by us.

Paul Munson met with George Stavros for an interview on Paul's investigation in White Plains, New York. The report went to the Library for review by G. Wheaton. Cataloged # 011322.
